

THE BENEFITS OF MASTER SPECIFICATIONS

1. **Efficient specification production process**
2. **Not based on a previous project**
3. **Up to date information**
4. **Reduces the risk of errors and omissions**
5. **Concise details**

Traditional clauses

VISUAL CHARGE INDICATORS

Each converted emergency luminaire is to have an LED securely fixed to the luminaire body in a position visible from below and arranged to provide indication that the emergency supply is charging. It is not acceptable to clamp LEDs to the lamps with circlips.

GREASE FILTER

Grease eliminators shall be of the corrugated plate type, crimped wire mesh type or baffle type and be entirely of metal. All materials used shall be resistant to or protected against corrosion. Where grease eliminators are fitted in kitchen hoods, the assembly shall include a drip tray and the element shall be secured in the frame by quick-release clips. In all cases the grease eliminator shall be readily accessible and removable for cleaning.

Master Specification clauses

VISUAL CHARGE INDICATORS

- Type: Red light-emitting diodes.
- Position within luminaire: Readily visible.
- Fixing to luminaire body: Secure.

GREASE FILTERS

- Filter type:
Metal mesh.
Metal baffle.
